Female Oxford Shirts

Main measurement needed: Bust

How to measure for this style:

1. Measure the student's Bust and Neck.
2. Find the size that has a **matching neck measurement** or is slightly higher, and make sure your student's bust measurement is 3"-5" less than the corresponding garment chest measurement. (This shirt is designed for maximum school day comfort. There should be 1.5" -2.5" of space on each side, between your student's body and the fabric.)

EX: Student's neck measures 12.25" and has a chest measurement of 28", you would need a size **8 Youth**.

Neck: around the lower part of the neck.

Bust: around the fullest part of the torso, under the arms.

HOW TO MEASURE SIZE CHARTS

Socks & Tights

A+ garments are made for comfort and ease of movement. If you're not sure what size to order, take some measurements and use our size charts to find the right fit. For both boys and girls, we recommend measuring over the undergarments, not over other clothing. Wrap a tape measure comfortably around your body; don't make it too tight.

The fit and comfort of any garment will depend on personal preferences, so these size charts are simply a guide. If you have any questions about sizing please call your dedicated customer service representative at 800-227-3215. We'll be happy to answer your questions.
